HEDGING

Mixed species native hedge approx 9.7lm + 10.7lm + 18lm @ 300mm centres x2 double row

60/80	BR 1+1	260
-------	--------	------------

20% Cratae.mon. (70), 10% Corylus av.(35), 10% Prunus spi. (35), 20% Ilex aq. (70), 5% Viburn.op. (18), 5% Viburn.lan.(18), 5% Rosa can.

(18), 5% Cornus sang. (18), 5% Sambucus ni. (18), 15% Acer camp.(54)

GENERAL GRASSED AREAS

GG 1 MAS AM5 40m2

GENERAL SOIL PREPARATION NOTES

All planting, seeding and hedging areas to have perennial and annual weeds removed by hand and by herbicide. All planting and hedging areas to have rubble and waste removed from soil to a depth of 300mm, addition of good quality screened and graded topsoil to 300mm and multi-purpose compost added at 75L/2m2 planting area. Finished planting areas to have a minimum 40mm depth bark chip added for good plant establishment. All planting watered thoroughly upon planting and weed free borders maintained for first year (see Plant Maintenance Schedule)

all as @ 09/08/12
